SKILLS

Programming & Web Technologies: C/C++, Python, SQL, HTML5, CSS3, JavaScript

Concepts: OOPs, Data Structures (Basic)

Developer Tools: Git, GitHub, VS Code

Data & Cloud Technologies: AWS Cloud Fundamentals, Data Handling, Basic Machine Learning

EXPERIENCE

Front End Web Development Intern | Edunet Foundation | AICTE & IBM SkillsBuild (Aug '25 – Sep'25)

- Completed a 6-week structured internship focused on HTML, CSS, JavaScript, and front-end fundamentals.
- Worked on practical assignments and mini-projects to strengthen real-world development skills.
- Gained exposure to industry-oriented development practices under AICTE guidelines.

AI-ML Virtual Intern | AICTE & EduSkills | AWS Academy (Jan '25 – Mar '25)

- Gained hands-on experience with ML models, cloud deployment, data preprocessing, and model evaluation using supervised and unsupervised learning.
- Developed skills in Python, Jupyter Notebooks, and cloud-native ML solutions under AWS Academy curriculum.

EDUCATION

Radhakrishna Institute of Technology and Engineering, Odisha

(2022 – 2026)

B. Tech in Computer Science and Engineering

CGPA: 7.39/10

ACADEMIC PROJECTS

Spotify Clone | Responsive Music Streaming Website

- Built a responsive Spotify music streaming website using HTML, CSS, and JavaScript. Implemented audio controls, playlist layout, and dynamic UI features inspired by Spotify.
- Implemented core functionalities including play, pause, next, and previous track controls.
- Designed a user-friendly interface with dynamic music controls and seamless navigation.

Currency Converter | HTML, CSS, JavaScript, Fetch API

- Built a real-time currency conversion web application that fetches live exchange rates from an external API.
- Implemented asynchronous API calls using Fetch API and Async/Await for seamless data retrieval.
- Designed a responsive and intuitive user interface for quick currency selection and conversion.
- Enhanced understanding of API integration, DOM manipulation, and JavaScript event handling.

CERTIFICATIONS

- **Frontend Web Development Internship** Edunet Foundation (AICTE & IBM SkillsBuild)
- **AI-ML and Data Engineering** by AICTE Eduskills & AWS Academy, gaining hands-on experience in Machine learning and data engineering.
- **Python Full Stack Development** - EduSkills
- **Oracle Cloud Infrastructure 2023 Certified AI Foundation Associate** - Oracle
- **Certified Python 3.4.3 training and PHP & My SQL** by IIT Bombay's Spoken Tutorial Program.
